

Veggie Harvest 2.5-4-36

Formulated with **BioPlex** "BAST" Buffer & Stabilization Technology
 Contains: NPK plus Micros - Humic Acid - Amino Acid - Yucca Extract

Benefits:

- Enhances Essential Oils in Cannabis, Hemp & Herbs
- Low Salt & Biostimulant Properties
- Uniform Nutrient Dispersal & Suspension

**Formulated with BAST
 Proprietary BUFFER and
 STABILIZATION Technology!**

Applications:

- Specialty Vegetable Crop Production
- Cannabis Crop Production
- VGS and Hydroponic Compatible

PACKAGE SIZE:
 25 lb Pail

Product Description:

BioPlex has formulated three state of the art **HydroMAXX** fertilizer formulas that can be effectively adapted to commercial Vertical Grow Systems (VGS) or used for specialty crop production, such as medical cannabis, when special, unique growth and harvest characteristics are necessary. All **BioPlex HydroMAXX™** Fertilizers are formulated with **BioPlex** proprietary BAST (Buffer And Stabilization Technology), which minimizes, often nearly eliminating, repetitive and time-consuming interim water pH & PPM variation adjustments.

BioPlex HydroMAXX Veggie Harvest 2.5-4-36 (Dry Soluble) is a premium water-soluble hydroponic base nutrient package designed for increased nutrient stability and uptake by the plant roots. The use of this product will enhance the production of essential oils and fragrances as well as stimulating root, fruit, flower and bud formations. The size of buds, fruit and flowering will also be reflected in a boost in production and harvest. Rich in a diverse group of micronutrients should help ensure that your crop can reach its full genetic potential crop after crop.

The essential fertilizer elements are blended with key beneficial ingredients to ensure limited interaction between the nutrients, preventing their precipitation from nutrient reservoirs or tanks. The addition of a patented Anionic Amino Acid Polymer, along with Humic Acid, helps to complex the mineral nutrients so they remain in a form that is readily available to the plant. Natural Yucca Extract serves as a "wetting agent" to allow for more uniform nutrient dispersal when dissolved in water. **BioPlex HydroMAXX Veggie Harvest 2.5-4-36** is to be used in conjunction with **HydroMAXX 5-0-0 Grow Base** (3.5% Ca / 1% Mg) in order to provide a well-rounded plant nutrition program.

BioPlex HydroMAXX Veggie Harvest 2.5-4-36 (Dry Soluble) is manufactured under the highest quality controls to ensure the same predictable growth and plant response each and every crop. You will find it competitively priced and highly adaptable to the most discerning hydroponic grower protocols. Experienced, technical product specialists are available to help with the initial implementation of this product into your production.

Formulation and Active Ingredient Profile

GUARANTEED ANALYSIS:	NON PLANT FOOD INGREDIENT(S):
Nitrogen (N)2.5% 2.5% Nitrate Nitrogen	Humic Acid 1.5%
Available Phosphate (P₂O₅)4.0%	Natural Yucca Extract 3.5%
Soluble Potash (K₂O) 36.0%	Anionic Amino Acid Polymer Salt ... 9.0%
Sulfur (S)8.5% 8.5% Water-Soluble Sulfur (S)	<i>Derived from: Humic Substances, Yucca Schidigera</i>
Boron (B) 0.09% 0.09% Water-Soluble Boron (B)	
Copper (Cu) 0.02% 0.02% Water-Soluble Copper (Cu)	
Iron (Fe)0.4% 0.4% Chelated Iron (Fe)	
Manganese (Mn)0.2% 0.2% Chelated Manganese (Mn)	
Molybdenum (Mo) 0.01% 0.01% Water-Soluble Molybdenum (Mo)	
Zinc (Zn)0.2% 0.2% Chelated Zinc (Zn)	

Derived from: Monopotassium Phosphate, Potassium Nitrate, Potassium Sulfate, Sodium Borate, Copper EDTA, Iron DTPA, Manganese EDTA, Sodium Molybdate, Zinc EDTA
