

Pure Premium Horticultural Grade Charcoal, a.k.a. BioChar

A clean, 3/4"- 3/8" gradation perfect for horticultural applications; add to compost at 5-10% by volume during digestion, soak with compost teas and add to soil directly, add to soil or soil-less media for aeration and nutrient management at 5% by volume, use as an animal bedding admixture at 5% to control odor and effluent. This biochar is derived from Sustainable Forestry Initiative (SFI) certified wood feedstock and has been field tested and proven for over 10 years, making it one of the oldest proven biochar materials on the market. Well behaved with nitrogen, durable in the soil. A true carbon capture. CARBON DOWN! ~3.75 gallons per box. 1/2 cu ft.

WARRANTY, DISCLAIMER: Product conforms to the product description and is reasonably suited for the purposes as stated. In no event shall the manufacturer or seller be held liable for any incidental, consequential or special damages resulting from the use, misuse or handling of this product. Correct handling and use is the sole responsibility of the buyer. The exclusive remedy of the buyer for all claims shall be the return of the purchase price of the product, at the discretion of the seller.

HAZARD WARNINGS/ CAUTION: Avoid breathing or ingesting this product. Breathing dust may cause nose, throat or lung irritation or choking. Gross ingestion may cause intestinal distress. Prolonged or repeated exposure may cause lung injury. This product may contain small amounts of crystalline silica which has been associated with cancer in occupational exposures. Use adequate ventilation when working in confined areas and wear suitable respiratory protective equipment.

KEEP OUT OF REACH OF CHILDREN!
